

Tired of eating dust you yourself make?

The dust table is a powerful solution to the problem of dust created from sanding, cutting and carving on woods, gourds and other crafty stuff. The Dust Table measures 16 inches by 30 inches (approx) and is 28 inches high. The Red Oak legs are removable for transporting and adjustability. I used the legs wooden, so each artist could cut the legs to the correct height for their most comfortable work area. All the tables are topped with a limited slip material to hold your project steady. The 10 inch fan is rated to move 550 CFM and is surprisingly quiet for being so powerful. This table is the result of the collaboration of several people.

This table sells for \$195 plus shipping and handling, or is available from Galaxy Gourds at a festival she is attending or at a class with Jill Walker.

For any questions or to order one separately, please contact me, Charlie Brown at (916) 989-2476 or email me at [sugarbare@yahoo.com](mailto:sugarbare@yahoo.com).
